

RE:

In RE we will be focusing on the key question: Why do Christians call the day Jesus died 'Good Friday'?

Personal Development:

During this time, we will focus on Media Literacy and learn the skills needed to be safe and confident online.

JOURNEYS

In this topic, we will explore the life-changing journeys that people take in their lifetimes. From the journeys of migrants around the world, to a story about an extraordinary journey of magic and adventure, to Jesus' journey to the cross. Who know where we'll end up!

English:

In English, we are going to be using the book 'Journey' by Aaron Becker. This wordless picture book tells the story of a girl who finds a magic pen that opens up a world of adventure. The images in this book will inspire our writing of an extended narrative in chapters.

Maths:

This half term we will be focusing on length and perimeter, fractions and decimals.

Science:

We are going to investigate:

- common appliances that run on electricity
- the components of an electrical circuit
- how to make a bulb light up within a circuit
- how a switch affects a circuit
- the safety risks of electricity

Geography:

In Geography, we will be learning all about migration. This will include the different types of migration and the reasons why people migrate, where people go, the effects of migration, and the role that climate change plays in migration. We will also learn about refugees and their experiences in the world today.
